NHS Trust

# Care Coordination

Our specialist triage nurses find patients the support they need 24 hours a day, 7 days a week.

We manage referrals to:

- ▶ **Planned Care (District Nurses)** - Provide holistic, high quality nursing care for housebound adults in the community
- ▶ **Rapid Intervention Team** - Advanced and specialist practitioners provide assessment, diagnostics and treatment for admission avoidance and end-of-life planning
- ▶ **Hospital at Home** - Manage Intravenous antibiotic administration, subcutaneous medications and trials without catheter in the community.
- ▶ **Virtual Ward** - Remote monitoring for adults and paediatrics. Supporting patients with acute and chronic illnesses to facilitate early discharge and admission avoidance.
- ▶ **Rapid Access to Social Care** - Personal social care for patients in their own homes to facilitate early discharge and admission avoidance.
- ▶ **Community Intermediate Care Team** - Short term rehabilitation - focused interventions to facilitate hospital discharge or prevent admission provided by a multidisciplinary team
- ▶ **Ambulatory Clinics** - Catheter and wound care for people able to attend clinics.
- ▶ **Anticoagulation & Phlebotomy** - Clinics and domiciliary care providing anticoagulation therapy, monitoring and phlebotomy.
- ▶ **SDEC (Same day emergency care)** - 4 acute care locations offering an alternative route to hospital care from A&E.
