Date:

Your Endoscopist was:

Your Nurse was:

Biopsies (tissue samples) have been taken Yes No

For further results:

- You will receive an appointment to be seen in an outpatient clinic
- Wait for a letter from your Consultant
- You will require a repeat / surveillance procedure in

.....

NB The national guideline for a repeat procedure may change before you are recalled. You will be informed if the time interval changes or a repeat procedure is no longer required

The prevention of infection is a major priority in all healthcare and everyone has a part to play.

- Please decontaminate your hands frequently for 20 seconds using soap and water or alcohol gel if available
- If you have symptoms of diarrhoea and/or vomiting, cough or other respiratory symptoms, a temperature or any loss of taste or smell please do not visit the hospital or any other care facility and seek advice from 111
- Keep the environment clean and tidy
- Let's work together to keep infections out of our hospitals and care homes.

Aftercare

When can I eat and drink?

You may have been given local anaesthetic throat spray to numb the back of your throat. If you had throat spray, you will have to wait until before you can eat and drink when the numbness will have worn off. The Endoscopy Nurse will advise you when you can eat and drink.

It is advisable to start with sips of water and then drinks not too hot or too cold.

You may prefer something light and soft to eat, before resuming your normal diet in the next few days.

When can I take my usual medicines / tablets?

You may take your usual medicines later today and as normal tomorrow

Special instructions

.....

What instructions must I follow for the next 24 hours?

You may have been given sedation (through a cannula inserted in your arm) and this impairs your reflexes and judgement. Follow these instructions if you have had sedation:

- You must go straight home and have a responsible adult with you overnight
- You must rest for the remainder of the day and have a quiet day tomorrow
- You must not drive for 24 hours (car insurance will be invalid)
- You must not operate electrical items or operate machinery
- You must not drink alcohol
- You must not sign any legally binding documents

If you did not have sedation, then you can resume your normal activities as soon as you have been discharged.

When I return home how will I feel?

It is usual to feel a little bloated for a few hours as air has been put into your stomach, this will pass naturally.

You may have a sore throat which should ease in 24-48 hours. Your swallowing may feel a little difficult for a few days and it is advisable to eat soft foods during this time. You may feel drowsy from the sedation for the remainder of the day. It is important to follow the instructions on page 2.

What if I feel unwell at home?

If you have severe abdominal pain, vomit or pass any blood, have a temperature or have chest pain, you must telephone for help and advice.

Who do I telephone for advice?

If you had your procedure carried out at **New Cross Hospital** contact the Endoscopy Unit as follows:

Monday - Friday, 8am - 6pm, telephone 01902 694191 or 01902 695191

If you had your procedure carried out at **Cannock Chase Hospital** contact the Endoscopy Unit as follows:

Monday - Friday, 8am - 6pm, telephone 01543 576736

At all other times you should attend the Emergency department at New Cross Hospital (or your local hospital if this is nearer).

You should explain that you have recently had an Endoscopy and that you are experiencing symptoms as described above. If possible, bring your copy of the Endoscopy report with you, but do not delay if you cannot find this.

Please advise the Doctor in the Emergency Department to inform the ward Gastroenterologist (9am to 5pm) or the on-call Gastroenterologist out of hours. It may be necessary for you to stay in hospital overnight.
