

Instructions for using distance Cat Stereograms

Patient information and instructions

The prevention of infection is a major priority in all healthcare and everyone has a part to play.

- Please decontaminate your hands frequently for 20 seconds using soap and water or alcohol gel if available
- If you have symptoms of diarrhoea and/or vomiting, cough or other respiratory symptoms, a temperature or any loss of taste or smell please do not visit the hospital or any other care facility and seek advice from 111
- Keep the environment clean and tidy
- Let's work together to keep infections out of our hospitals and care homes.

Distance stereogram exercise (cat card):

The aim of the exercise is to maintain a single image of the cat card you are directly looking at.

- If you require reading glasses these should be worn during these exercises
 - If the Orthoptist has put a stick-on Fresnel prism over one lens of your reading glasses this should be kept on
1. Hold the stereogram card at arm's length, at the same level as your eyes
 2. Hold a pen or target behind the card or look into the distance
 3. Look at the tip of the pen and concentrate on it
 4. Move the card slowly towards you until you see the cats become double (image below)

5. The middle two cats then fuse into a single cat in the middle with two ears, two whiskers and a tail

6. Hold the above image by looking at the target pen or distance and make it as clear as possible
7. Relax your eyes by looking into the distance or close your eyes for a few minutes

******Breaks include looking outside or closing the eyes for five minutes******

Repeat the above for mins times per day.

If you have any questions or require further information, please call us on **01902 695830**.
